

# It's about transforming lives

## **Spring Azure** *Celastrina ladon*

**Spring Azure butterfly** ranges widely through much of Canada and the US. Flight occurs from early April to mid-May in southern Ontario and from late April to mid-June in the rest of its Canadian range. Adults are most commonly seen in open woodlands and along woodland margins where flowering shrubs are common.

**Spring Azure Butterfly Society:** a group of individuals, companies, service clubs and foundations who give a \$500 donation to advance the work of The Canadian Hearing Society in serving those who are deaf, deafened and hard of hearing.

**Most butterflies are deaf.**

**THE CANADIAN HEARING SOCIETY**  
**LA SOCIÉTÉ CANADIENNE DE L'OUÏE**
